PROFESSIONAL SUMMARY

Enthusiastic Computer Science student with a strong foundation in Data Science, skilled in data analysis, visualization, and machine learning concepts through academic and personal projects. Seeking an entry-level position to apply analytical thinking and problem-solving abilities in a data-driven environment, leveraging knowledge of Python, SQL, and statistical techniques to extract meaningful insights and support organizational growth.

TECHNICAL SKILLS

Languages :	Python, C++, PHP, SQL
Web :	HTML, CSS
Data Tools :	Excel, Power BI
Technologies :	Basic Machine Learning, Artificial Intelligence
Tools :	MS Office, MS words, Canva, Photoshop, Adobe Illustrator, CorelDRAW, Inpage
Soft Skill :	Good communication skill, Problem solving Quick learner, Leadership quality

KEY PROJECTS

Genie AI | Tech: Python

- **Engineered** a modular Voice-Controlled Desktop Assistant using Python, integrating Speech Recognition, capable of executing commands and perform basic automation task
- **Implemented** a custom Command Pattern architecture, allowing for scalable integration of new features like opening applications and media control.
- **Reduced** manual task execution time by approximately 40% through the development of hands-free shortcuts and file managements.

EDUCATION

Bachelor of Computer Application (BCA)

Sandip University, Madhubani | GPA: 8.36 | pursuing

CERTIFICATIONS & ACHIEVEMENTS

- Developed a functional voice assistant using Python
- Completed hands-on projects in Data Analysis and Machine Learning
- Actively learning digital marketing and new technologies
